

Building Brick Rainbows

STEM Activity

The Activity

1. Provide the children with building bricks in the colours of red, yellow, green, orange, blue, purple and white in various sizes.
2. Ask them the question 'How do we build a rainbow with the building bricks?'
3. Give them time to try and then show them the flashcards as a prompt.
4. Let them choose which rainbow they want to try first.
5. One rainbow is sitting on the clouds, another one is sitting on the ground.
6. Can they make rainbows of various sizes?
7. Maybe they will find a pot of gold at the end of their rainbow!

You will need:

Building bricks in red, orange, yellow, green, blue, purple and white

A base plate
